

## Year Group Missions 2025 – 2026

Missions focus on a range of Catholic Social Teaching principles and bring them to life in meaningful ways across the year, through practical action in school, the parish and the wider community. As children move through the school, they naturally grow in confidence and independence: younger pupils are supported through adult-led planning, while older pupils increasingly lead and shape the missions themselves. These experiences take different forms too, with some missions happening over a morning or a day, and others unfolding over a longer period.

<b>Year</b>	<b>Term</b>	<b>Focus</b>	<b>CST Themes</b>
